`intlasns` *Unintelligent - intelligent*

Description

intlasns

Details

Question Now I have some questions about different groups in our society. I'm going to show you a seven-point scale on which the characteristics of people in a group can be rated. In the first statement a score of 1 means that you think almost all of the people in that group are "rich." A score of 7 means that you think almost everyone in the group are "poor." A score of 4 means you think that the group is not towards one end or another, and of course you may choose any number In between that comes closest to where you think people in the group stand. D. Do people in these groups tend to be unintelligent or tend to be intelligent? 4. Asian Americans?

Question Now I have some questions about different groups in our society. I'm going to show you a seven-point scale on which the characteristics of people in a group can be rated. In the first statement a score of 1 means that you think almost all of the people in that group are "rich." A score of 7 means that you think almost everyone in the group are "poor." A score of 4 means you think that the group is not towards one end or another, and of course you may choose any number In between that comes closest to where you think people in the group stand. D. Do people in these groups tend to be unintelligent or tend to be intelligent? 2. Jews?

`jewtemp` *Feeling thermometer:jews*

Description

jewtemp

Details

Question I'd like to get your feelings toward groups that are in the news these days. I will use something we call the feeling thermometer, and here is how it works: I'll read the names of a group and I'd like you to rate that group using the feeling thermometer. Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the group. Ratings between 0 degrees and 50 degrees mean that you don't feel favorable toward the group and that you don't care too much for that group. If we come to a group whose name you Don't recognize, you don't need to rate that group. Just tell me and we'll move on to the next one. IF you do recognize the name, but you don't feel particularly warm or cold toward the group, you would rate the group at the 50 degree mark. How would you rate this group using the thermometer? E. judgeluv *Contrast between judge and lover*

Description

judgeluv

Details

Question There are many different ways of picturing God. We'd like to know the kinds of images you are most likely to associate with God. Here is a card with sets of contrasting images. On a scale of 1-7 where would you place your image of God between the two contrasting images? (HAND CARD AE) The first set of contrasting images shows Mother at 1 on the scale and Father at 7. If you imagine God as a Mother you would place yourself at 1. If you imagine God as a Father, you would place yourself at 7. If you imagine God as somewhere between Mother and Father, you would place yourself at 2, 3, 4, 5, or 6. (REPEAT EXAMPLE AS NECESSARY FOR EACH ITEM A-F, SUBSTITUTING IMAGES A-F FOR "MOTHER" AND "FATHER".) Where would you place your image of God on the scale for . . . READ EACH SET OF IMAGES AND CIRCLE ONE CODE FOR EACH.

`landwar` *Possibility of a conventional ground war*

Description

landwar

Details

Question I'm going to read you some possible military situations the U.S. might face in the next ten years. (HAND CARD BB) Some people feel these situations are certain to happen (think of these as point 7 on the scale), others think these situations won't happen at all (think of these as point 1 on the scale). And of course some people have opinions somewhere in between. For each of these possible military situations, please give me your best guess as to how likely it is to happen. For example, an all-out atomic war. Where would you put the likelihood of an all-out atomic war during the next ten years? (Would you say 7–it is certain to happen, 1–it won't happen at all, or something in between?) (CIRCLE ONE CODE FOR "A" AND REPEAT FOR B-F) B. A conventional ground war involving thousands of troops?

Description

lessnuke

Details

Question I'm going to read you some possible military situations the U.S. might face in the next ten years. (HAND CARD BB) Some people feel these situations are certain to happen (think of these as point 7 on the scale), others think these situations won't happen at all (think of these as point 1 on the scale). And of course some people have opinions somewhere in between. For each of these possible military situations, please give me your best guess as to how likely it is to happen. For example, an all-out atomic war. Where would you put the likelihood of an all-out atomic war during the next ten years? (Would you say 7–it is certain to happen, 1–it won't happen at all, or something in between?) (CIRCLE ONE CODE FOR "A" AND REPEAT FOR B-F) D. libtemp *Feeling thermometer:liberals*

Description

libtemp

Details

Question I'd like to get your feelings toward groups that are in the news these days. I will use something we call the feeling thermometer, and here is how it works: I'll read the names of a group and I'd like you to rate that group using the feeling thermometer. Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the group. Ratings between 0 degrees and 50 degrees mean that you don't feel favorable toward the group and that you don't care too much for that group. If we come to a group whose name you Don't recognize, you don't need to rate that group. Just tell me and we'll move on to the next one. IF you do recognize the name, but you don't feel particularly warm or cold toward the group, you would rate at the 50 degree mark. Our first group is liberals. How would you rate this group using the thermometer? A. Liberals

`likediff` *Afterlife contrast: better or lacking*

Description

likediff

Details

Question A. People picture life after death in many different ways. We'd like to know how you think of life after death. Here is a card with sets of contrasting images. On a scale of 1-7 where would you place your image of life after death. Look at the first set of contrasting images. If you think that life after death is "A life like the one here on earth only better," you would place yourself at 1. If you think it is "A life without many things which make our present life enjoyable" you would place yourself at 7. If you think it is somewhere between these two you would place yourself at 2, 3, 4, 5, or 6. Where would you place your images of life after death for . . .?

mapa *Contrast between mother and father*

Description

mapa

Details

Question There are many different ways of picturing God. We'd like to know the kinds of images you are most likely to associate with God. Here is a card with sets of contrasting images. On a scale of 1-7 where would you place your image of God between the two contrasting images? (HAND CARD AE) The first set of contrasting images shows Mother at 1 on the scale and Father at 7. If you imagine God as a Mother you would place yourself at 1. If you imagine God as a Father, you would place yourself at 7. If you imagine God as somewhere between Mother and Father, you would place yourself at 2, 3, 4, 5, or 6. (REPEAT EXAMPLE AS NECESSARY FOR EACH ITEM A-F, SUBSTITUTING IMAGES A-F FOR "MOTHER" AND "FATHER".) Where would you place your image of God on the scale for . . . READ EACH SET OF IMAGES AND CIRCLE ONE CODE FOR EACH.

mapres105plus *Mothers occupational prestige score using threshold method (2010)*

Description

mapres105plus

Details

Question MAPRES105PLUS is based on the 2010 Census occupation classification. This prestige score is calculated using an alternative method, based on the percentage of ratings that is greater than or equal to a threshold (rating five). The effect of individual raters is also removed using hierarchical linear modeling (HLM).

Details

Question Please tell me the names of the people who usually live in this household. Let's start with the head of the household. (LIST ON LINES 01-10 BELOW.) Have we forgotten anyone: such as babies or small children; roomers; people who usually live here, but are away temporarily–on business trips, vacations, at school, temporarily in a hospital, and so on? (LIST ADDITIONAL PERSONS ON LINES 01-10 BELOW.) Are there any people currently staying here–visitors, friends or relatives–do not usually live here? (LIST VISITORS ON LINES 11-14 BELOW.) A. What is that (PERSON'S) relationship to the HEAD OF HOUSEHOLD? B. Code sex. (ASK IF NOT OBVIOUS). C. How old was (HEAD/PERSON) on (his/her) last birthday? D. IF 13 YRS OR OLDER ASK: Is (PERSON) now married, widowed, divorced, separated, or has (he/she) never been married? E. Are any of the people we have listed staying somewhere else right now? If yes, who is staying somewhere else right now? F. Where is (PERSON) staying right now? Is (PERSON) staying at another household; Is (he/she) traveling; Is (he/she) in some institution or dormitory–like at college or in a hospital or something; or what? 4. Marital status of eleventh person

Details

Question Please tell me the names of the people who usually live in this household. Let's start with the head of the household. (LIST ON LINES 01-10 BELOW.) Have we forgotten anyone: such as babies or small children; roomers; people who usually live here, but are away temporarily–on business trips, vacations, at school, temporarily in a hospital, and so on? (LIST ADDITIONAL PERSONS ON LINES 01-10 BELOW.) Are there any people currently staying here–visitors, friends or relatives–do not usually live here? (LIST VISITORS ON LINES 11-14 BELOW.) A. What is that (PERSON'S) relationship to the HEAD OF HOUSEHOLD? B. Code sex. (ASK IF NOT OBVIOUS). C. How old was (HEAD/PERSON) on (his/her) last birthday? D. IF 13 YRS OR OLDER ASK: Is (PERSON) now married, widowed, divorced, separated, or has (he/she) never been married? E. Are any of the people we have listed staying somewhere else right now? If yes, who is staying somewhere else right now? F. Where is (PERSON) staying right now? Is (PERSON) staying at another household; Is (he/she) traveling; Is (he/she) in some institution or dormitory–like at college or in a hospital or something; or what? 4. Marital status of second person

(LIST ADDITIONAL PERSONS ON LINES 01-10 BELOW.) Are there any people currently staying here–visitors, friends or relatives–do not usually live here? (LIST VISITORS ON LINES 11-14 BELOW.) A. What is that (PERSON'S) relationship to the HEAD OF HOUSEHOLD? B. Code sex. (ASK IF NOT OBVIOUS). C. How old was (HEAD/PERSON) on (his/her) last birthday? D. IF 13 YRS OR OLDER ASK: Is (PERSON) now married, widowed, divorced, separated, or has (he/she) never been married? E. Are any of the people we have listed staying somewhere else right now? If yes, who is staying somewhere else right now? F. Where is (PERSON) staying right now? Is (PERSON) staying at another household; Is (he/she) traveling; Is (he/she) in some institution or dormitory–like at college or in a hospital or something; or what? 4. Marital status of sixth person

`mastersp` *Contrast between master and spouse*

Description

mastersp

Details

Question There are many different ways of picturing God. We'd like to know the kinds of images you are most likely to associate with God. Here is a card with sets of contrasting images. On a scale of 1-7 where would you place your image of God between the two contrasting images? (HAND CARD AE) The first set of contrasting images shows Mother at 1 on the scale and Father at 7. If you imagine God as a Mother you would place yourself at 1. If you imagine God as a Father, you would place yourself at 7. If you imagine God as somewhere between Mother and Father, you would place yourself at 2, 3, 4, 5, or 6. (REPEAT EXAMPLE AS NECESSARY FOR EACH ITEM A-F, SUBSTITUTING IMAGES A-F FOR "MOTHER" AND "FATHER".) Where would you place your image of God on the scale for . . . READ EACH SET OF IMAGES AND CIRCLE ONE CODE FOR EACH.

`meltpot` *R attitude toward mixing cultures in us*

Description

meltpot

Details

Question Some people say that it is better for America if different racial and ethnic groups maintain their distinct cultures. Others say that it is better if groups change so that they blend into the larger society as in the idea of a melting pot. Here is a card with a scale from 1 to 7. Think of a score of 1 as meaning that racial and ethnic groups should maintain their distinct cultures, and a score of 7 as meaning that groups should change so that they blend into the larger society. What score between 1 and 7 comes closest to the way you feel? (CIRCLE ONE):

`mindbody` *Afterlife contrast: spiritual or sensual*

Description

mindbody

Details

Question A. People picture life after death in many different ways. We'd like to know how you think of life after death. Here is a card with sets of contrasting images. On a scale of 1-7 where would you place your image of life after death. Look at the first set of contrasting images. If you think that life after death is "A life like the one here on earth only better," you would place yourself at 1. If you think it is "A life without many things which make our present life enjoyable" you would place yourself at 7. If you think it is somewhere between these two you would place yourself at 2, 3, 4, 5, or 6. Where would you place your images of life after death for . . .?

Details

Question I'm going to read you some possible military situations the U.S. might face in the next ten years. (HAND CARD BB) Some people feel these situations are certain to happen (think of these as point 7 on the scale), others think these situations won't happen at all (think of these as point 1 on the scale). And of course some people have opinions somewhere in between. For each of these possible military situations, please give me your best guess as to how likely it is to happen. For example, an all-out atomic war. Where would you put the likelihood of an all-out atomic war during the next ten years? (Would you say 7–it is certain to happen, 1–it won't happen at all, or something in between?) (CIRCLE ONE CODE FOR "A" AND REPEAT FOR B-F) C. Peace but increasing arms build by the U.S. and Russia?

Description

mostimp2

Details

Question The next questions concern how people think about the past. There have been a lot of national and world events and changes over the past 60 years–say, from about 1930 right up until today. Would you mention one or two such events or changes that seem to you to have been especially important? There aren't any right or wrong answers to the question–just whatever national or world events or changes over the past 60 years that come to mind as important to you.

mslmtemp *Feeling thermometer:muslims*

Description

mslmtemp

Details

Question I'd like to get your feelings toward groups that are in the news these days. I will use something we call the feeling thermometer, and here is how it works: I'll read the names of a group and I'd like you to rate that group using the feeling thermometer. Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the group. Ratings between 0 degrees and 50 degrees mean that you don't feel favorable toward the group and that you don't care too much for that group. If we come to a group whose name you Don't recognize, you don't need to rate that group. Just tell me and we'll move on to the next one. IF you do recognize the name, but you don't feel particularly warm or cold toward the group, you would rate the group at the 50 degree mark. How would you rate this group using the thermometer? F. Description

nanoknw1

Details

Question Here are a couple of true-false questions about nanotechnology. As before, if you don't know or aren't sure, just tell me so, and we will skip to the next question. Remember true, false, or don't know. A. Nanotechnology involves manipulating extremely small units of matter, such as individual atoms, in order to produce better materials. (Is that true or false?)

Details

Question We are faced with many problems in this country, none of which can be solved easily or inexpensively. I'm going to name some of these problems, and for each one I'd like you to tell me whether you think we're spending too much money on it, too little money, or about the right amount. First (READ ITEM A) . . . are we spending too much, too little, or about the right amount on (ITEM)? G. Improving the nation's education system

nonuke *Possibility eliminating atomic weapons*

Description

nonuke

Details

Question I'm going to read you some possible military situations the U.S. might face in the next ten years. (HAND CARD BB) Some people feel these situations are certain to happen (think of these as point 7 on the scale), others think these situations won't happen at all (think of these as point 1 on the scale). And of course some people have opinions somewhere in between. For each of these possible military situations, please give me your best guess as to how likely it is to happen. For example, an all-out atomic war. Where would you put the likelihood of an all-out atomic war during the next ten years? (Would you say 7–it is certain to happen, 1–it won't happen at all, or something in between?) (CIRCLE ONE CODE FOR "A" AND REPEAT FOR B-F) E. Elimination of atomic weapons by both U.S. and Russia?

`nukewar` *Possibility of an all-out atomic war*

Description

nukewar

Details

Question I'm going to read you some possible military situations the U.S. might face in the next ten years. (HAND CARD BB) Some people feel these situations are certain to happen (think of these as point 7 on the scale), others think these situations won't happen at all (think of these as point 1 on the scale). And of course some people have opinions somewhere in between. For each of these possible military situations, please give me your best guess as to how likely it is to happen. For example, an all-out atomic war. Where would you put the likelihood of an all-out atomic war during the next ten years? (Would you say 7–it is certain to happen, 1–it won't happen at all, or something in between?) (CIRCLE ONE CODE FOR "A" AND REPEAT FOR B-F) A. An all-out atomic war?

ob911 *Obligation–reporting a crime*

Description

ob911

Details

Question And one last question. We all know that American citizens have certain rights. For example, they have the right to free public education and to police protection, the right to attend religious services of their choice, and the right to elec public officials. I'd like to ask now about certain obligations that some people feel American citizens owe their country. I just want your own opinion on these–whether you feel it is a very important obligation, a somewhat important obligation, or not an obligation that a citizen owes to the country. (READ EACH STATEMENT AND CIRCLE ONE CODE for each). (REPEAT ANSWER CATEGORIES AS NECESSARY) D. Reporting a crime that he or she may have witnessed?

Values

- [1] very important

obeng *Obligation–being able to speak english*

Description

obeng

Details

Question And one last question. We all know that American citizens have certain rights. For example, they have the right to free public education and to police protection, the right to attend religious services of their choice, and the right to elec public officials. I'd like to ask now about certain obligations that some people feel American citizens owe their country. I just want your own opinion on these–whether you feel it is a very important obligation, a somewhat important obligation, or not an obligation that a citizen owes to the country. (READ EACH STATEMENT AND CIRCLE ONE CODE for each). (REPEAT ANSWER CATEGORIES AS NECESSARY) E. How about being able to speak and understand English?

obmepax *Obligation–peacetime mil service-men*

Description

obmepax

Details

Question And one last question. We all know that American citizens have certain rights. For example, they have the right to free public education and to police protection, the right to attend religious services of their choice, and the right to elec public officials. I'd like to ask now about certain obligations that some people feel American citizens owe their country. I just want your own opinion on these–whether you feel it is a very important obligation, a somewhat important obligation, or not an obligation that a citizen owes to the country. (READ EACH STATEMENT AND CIRCLE ONE CODE for each). (REPEAT ANSWER CATEGORIES AS NECESSARY) G. How about, for young men, serving in the military during peacetime?
