scmed *How well medical researcher's understand stem cells*

Description

scmed

Details

Question Here is another public issue: research that uses human embryonic stem cells. These are cells from human embryos that can develop into many different types of tissue. Some say that cells taken from human embryos are uniquely valuable in medical research. Others say that the same discoveries can be made without destroying living embryos. Please look at Card B6. (On a scale of 1 to 5, where 1 means "Very Well" and 5 means "Not at All"), how well do the following groups understand stem cell research? A. Medical researchers

Description

sibnum

Details

Question In the first part of this questionnaire, we would like to ask you about your family and friends. For example, about how often you see or visit them, and when you turn to them for help or advice. We would like to begin with your brothers and sisters. How many adult brothers and/or sisters - we mean brothers or sisters who are age 18 and older - do you have? (We mean brothers and sisters who are still alive. Please include step-brothers and -sisters, half-brothers and sisters and adopted brothers and sisters) If you have no ADULT brothers or sisters, enter "0".

Description

spanint

Details

Question Before 2006 the GSS was only administered in English. Those without enough English to do the interview were excluded as out-of-scope, language problems. In 2006 a Spanish version of the GSS was added. If there had been no Spanish version available in 2006, could this respondent have been interviewed in English or do you think (s/he) would have been excluded as a language problem?

sppres105plus *Spouse occupational prestige score using threshold method (2010)*

Description

sppres105plus

Details

Question SPPRES105PLUS is based on the 2010 Census occupation classification. This prestige score is calculated using an alternative method, based on the percentage of ratings that is greater than or equal to a threshold (rating five). The effect of individual raters is also removed using hierarchical linear modeling (HLM).

Details

Question Some people say that it is only fair that in a society like ours, people holding public office should have roughly the same racial or ethnic background as the population as a whole. So, for example, if 30pct of the people were Hispanic, then 30pct of the public officials should be Hispanic as well. Others say that in choosing people for public office they should be considered purely on the basis of ability without regard to their ethnic or racial background. Let me ask you about these ideas in several different areas. B. What about teachers in public schools or universities? Should they have roughly the same racial or ethnic background as their students, or should they be considered purely on the basis of their ability without regard to their racial or ethnic background?

`teensex` *Sex before marriage:teens 14-16*

Description

teensex

Details

Question There's been a lot of discussion about the way morals and attitudes about sex are changing in this country. If a man and woman have sex relations before marriage, do you think it is always wrong, almost always wrong, wrong only sometimes, or not wrong at all? A. What if they are in their early teens, say 14 to 16 years old? In that case, do you think sex relations before marriage are always wrong, almost always wrong, wrong only sometimes, or not wrong at all?

`undoccol` *Illegal immigrants access to public univer'sities?*

Description

undoccol

Details

Question Under current law, immigrants who come from other countries to the United States legally are entitled, from the very beginning, to government assistance such as Medicaid, food stamps, or welfare on the same basis as citizens. But some people say they should not be eligible until they have lived here for a year or more. Which do you think? Do you think that immigrants who are here legally should be eligible for such services as soon as they come, or should they not be eligible?' A. What about "undocumented aliens," that is, those who have immigrated to this country illegally? 2. Should they be entitled to attend public universities at the same costs as other students, or not?

violasns *Violent - not violent*

Description

violasns

Details

Question Now I have some questions about different groups in our society. I'm going to show you a seven-point scale on which the characteristics of people in a group can be rated. In the first statement a score of 1 means that you think almost all of the people in that group are "rich." A score of 7 means that you think almost everyone in the group are "poor." A score of 4 means you think that the group is not towards one end or another, and of course you may choose any number In between that comes closest to where you think people in the group stand. C. The next set asks if people in each group tend to be violence prone or if they tend not to be prone to violence? 4. Asian Americans?

Description

where1

Details

Question Please tell me the names of the people who usually live in this household. Let's start with the head of the household. (LIST ON LINES 01-10 BELOW.) Have we forgotten anyone: such as babies or small children; roomers; people who usually live here, but are away temporarily–on business trips, vacations, at school, temporarily in a hospital, and so on? (LIST ADDITIONAL PERSONS ON LINES 01-10 BELOW.) Are there any people currently staying here–visitors, friends or relatives–do not usually live here? (LIST VISITORS ON LINES 11-14 BELOW.) A. What is that (PERSON'S) relationship to the HEAD OF HOUSEHOLD? B. Code sex. (ASK IF NOT OBVIOUS). C. How old was (HEAD/PERSON) on (his/her) last birthday? D. IF 13 YRS OR OLDER

ASK: Is (PERSON) now married, widowed, divorced, separated, or has (he/she) never been married? E. Are any of the people we have listed staying somewhere else right now? If yes, who is staying somewhere else right now? F. Where is (PERSON) staying right now? Is (PERSON) staying at another household; Is (he/she) traveling; Is (he/she) in some institution or dormitory–like at college or in a hospital or something; or what? 6. Where is the first person staying?

Details

Question Please tell me the names of the people who usually live in this household. Let's start with the head of the household. (LIST ON LINES 01-10 BELOW.) Have we forgotten anyone: such as babies or small children; roomers; people who usually live here, but are away temporarily–on business trips, vacations, at school, temporarily in a hospital, and so on? (LIST ADDITIONAL PERSONS ON LINES 01-10 BELOW.) Are there any people currently staying here–visitors, friends or relatives–do not usually live here? (LIST VISITORS ON LINES 11-14 BELOW.) A. What is that (PERSON'S) relationship to the HEAD OF HOUSEHOLD? B. Code sex. (ASK IF NOT OBVIOUS). C. How old was (HEAD/PERSON) on (his/her) last birthday? D. IF 13 YRS OR OLDER ASK: Is (PERSON) now married, widowed, divorced, separated, or has (he/she) never been married? E. Are any of the people we have listed staying somewhere else right now? If yes, who is staying somewhere else right now? F. Where is (PERSON) staying right now? Is (PERSON) staying at another household; Is (he/she) traveling; Is (he/she) in some institution or dormitory–like at college or in a hospital or something; or what? 6. Where is the fourth person staying?

where9 *Where is 9th person staying?*

Description

where9

Details

Question Please tell me the names of the people who usually live in this household. Let's start with the head of the household. (LIST ON LINES 01-10 BELOW.) Have we forgotten anyone: such as babies or small children; roomers; people who usually live here, but are away temporarily–on business trips, vacations, at school, temporarily in a hospital, and so on? (LIST ADDITIONAL PERSONS ON LINES 01-10 BELOW.) Are there any people currently staying here–visitors, friends or relatives–do not usually live here? (LIST VISITORS ON LINES 11-14 BELOW.) A. What is that (PERSON'S) relationship to the HEAD OF HOUSEHOLD? B. Code sex. (ASK IF NOT OBVIOUS). C. How old was (HEAD/PERSON) on (his/her) last birthday? D. IF 13 YRS OR OLDER ASK: Is (PERSON) now married, widowed, divorced, separated, or has (he/she) never been married? E. Are any of the people we have listed staying somewhere else right now? If yes, who is staying somewhere else right now? F. Where is (PERSON) staying right now? Is (PERSON) staying at another household; Is (he/she) traveling; Is (he/she) in some institution or dormitory–like at college or in a hospital or something; or what? 6. Where is the ninth person staying?

Details

Question Now I have some questions about different groups in our society. I'm going to show you a seven-point scale on which the characteristics of people in a group can be rated. In the first statement a score of 1 means that you think almost all of the people in that group are "rich." A score of 7 means that you think almost everyone in the group are "poor." A score of 4 means you think that the group is not towards one end or another, and of course you may choose any number In between that comes closest to where you think people in the group stand. 4. Description

worda

Details

Question We would like to know something about how people go about guessing words they do not know. On this card are listed some words–you may know some of them, and you may not know quite a few of them. On each line the first word is in capital letters – like BEAST. Then there are five other words. Tell me the number of the word that comes closest to the meaning of the word in capital letters. For example, if the word in capital letters is BEAST, you would say "4" since "animal" come closer to BEAST than any of the other words. If you wish, I will read the words to you. These words are difficult for almost everyone – just give me your best guess if you are not sure of the answer. CIRCLE ONE CODE NUMBER FOR EACH ITEM BELOW. A. Word A

Description

worde

Details

Question We would like to know something about how people go about guessing words they do not know. On this card are listed some words–you may know some of them, and you may not know quite a few of them. On each line the first word is in capital letters – like BEAST. Then there are five other words. Tell me the number of the word that comes closest to the meaning of the word in capital letters. For example, if the word in capital letters is BEAST, you would say "4" since "animal" come closer to BEAST than any of the other words. If you wish, I will read the words to you. These words are difficult for almost everyone – just give me your best guess if you are not sure of the answer. CIRCLE ONE CODE NUMBER FOR EACH ITEM BELOW. E. Word E

`wordsum` *Number words correct in vocabulary test*

Description

wordsum

Details

Question We would like to know something about how people go about guessing words they do not know. On this card are listed some words–you may know some of them, and you may not know quite a few of them. On each line the first word is in capital letters – like BEAST. Then there are five other words. Tell me the number of the word that comes closest to the meaning of the word in capital letters. For example, if the word in capital letters is BEAST, you would say "4" since "animal" come closer to BEAST than any of the other words. If you wish, I will read the words to you. These words are difficult for almost everyone – just give me your best guess if you are not sure of the answer. CIRCLE ONE CODE NUMBER FOR EACH ITEM BELOW. K. Total number of correct words.

workasns *Hard working - lazy*

Description

workasns

Details

Question Now I have some questions about different groups in our society. I'm going to show you a seven-point scale on which the characteristics of people in a group can be rated. In the first statement a score of 1 means that you think almost all of the people in that group are "rich." A score of 7 means that you think almost everyone in the group are "poor." A score of 4 means you think that the group is not towards one end or another, and of course you may choose any number In between that comes closest to where you think people in the group stand. B. The second set of characteristics asks if people in the group tend to be hard-working or if they tend to be lazy. 4. Asian Americans?

`workimm` *Are legal immigrants hard working*

Description

workimm

Details

Question Now I have some questions about different groups in our society. I'm going to show you a seven-point scale which the characteristics of people in a group can be rated. In the first statement a score of 1 means that you think almost all of the people in that group are "rich." A score of 7 means that you think almost everyone in the group are "poor." A score of 4 means that you think that the group is not towards one end or another, and of course you may choose any number in between that comes closest to where you think people in the group stand. B1. Legal immigrants?

world1 *World image:much evil vs. much good*

Description

world1

Details

Question People have different images of the world and human nature. We'd like to know the kinds of images you have. Here is a card with sets of contrasting images. On a scale of 1-7 where would you place your image of the world and human nature between the two contrasting images? (HAND CARD AH) Look at the first set of contrasting images. If you think that "The world is basically filled with evil and sin," you would place yourself at 1. If you think "There is much goodness in the world which hints at God's goodness" you would place yourself at 7. If you think things are somewhere between these two you would place yourself at 2, 3,4, 5 or 6. (REPEAT EXAMPLE AS NECESSARY FOR EACH ITEM A-F) Where would you place your image of the world on the scale for . . .? (READ EACH SET AND CIRCLE ONE CODE FOR EACH)
